SSMID Advisory Board

Downtown Wichita contracts with the City of Wichita on an annual basis to provide downtown development services. The contract is funded through a Self Supported Municipal Improvement District (SSMID). Property owners within the SSMID pay an additional property tax mil levy. The SSMID boundaries are Washington Street, Central Avenue, Kellogg and the Arkansas River.

The Downtown Wichita Board of Directors employs a professional staff that can assist developers and property owners evaluate and plan a range of investment decisions. We can help to identify prospective business locations, provide market data, evaluate opportunities for new retail and service businesses, develop marketing and promotional strategies and assist with conceptualizing and implementing construction projects.

In 2010, the City of Wichita adopted Project Downtown: The Master Plan for Wichita. Downtown Wichita serves as the private-sector implementer of the master plan.
