CLEAN
TEAM

3rd Quarter OPERATIONS REPORT

2026

Executive Summary

The Clean Team successfully navigated one of the hottest and driest summers on record. Despite extreme heat, the district remained clean, well-maintained, and welcoming for the thousands of visitors who enjoyed events such as the Chili Cookoff, numerous concerts at Nafzger Park, Open Streets on Douglas, and many other gatherings.

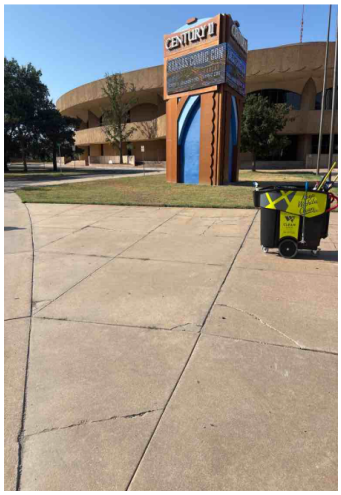

Operational focus stayed firmly on weed control and overall appearance. Spot weeding remained consistently strong (155 / 153 / 109), while landscape debris removal surged in August with 519 bags collected. Litter removal totaled 4,224 pounds for the quarter, with the heaviest volume occurring in July.

A notable challenge emerged when the "Sticker Bandit" tagged more than 294 surfaces in a single weekend. The Clean Team immediately declared the district a sticker-free zone and responded with focused abatement work, bringing the quarterly total for bills and stickers removed to 411.

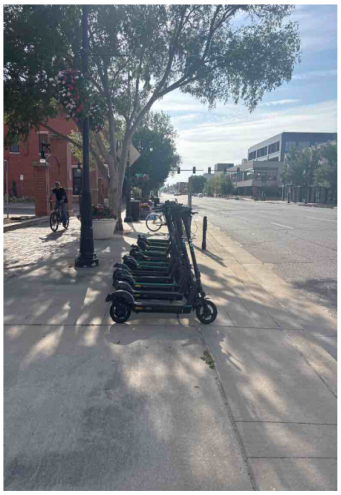

Micromobility demand also rose with the crowds. The team relocated 348 scooters and bikes in August and 309 in September–over 300 units in each of the final two months of the quarter–demonstrating both the popularity of the district and the team's capacity to keep pathways clear.

Most other activity levels remained consistent with expectations for a busy summer, with temporary spikes directly attributable to special events.

The team itself remains strong. A new member, Aiden, joined in September and has been training alongside the consistently reliable Steve and Johnny. Aiden brings a positive attitude and a sharp eye for detail. As the season shifts into fall, the team's primary focus will turn to leaf management while continuing to uphold the high standards that keep the district looking its best.

SUMMARY

These scenes are turning into distant memories! How could you not take pride in a city that looks like this? Visitors and residents alike are noticing! Seldom does a day go by that each member of the team is thanked for our work!
